### SUMMARY

---

Full Stack Developer with solid training and experience focused on backend development, infrastructure management, and deployment of web applications in corporate environments. Proficient in languages such as **Python and Java**, as well as adopting modern technologies based on **TypeScript (Node.js, NestJS, and Angular)**. Experienced in participating across the full software development lifecycle, from relational and vector database design to automating production deployments using **Docker Compose, Nginx, and Google Cloud Platform (GCP)**. Additionally, skilled in integrating Artificial Intelligence models (LLMs) to optimize features within web applications. Recognized for technical adaptability, strong teamwork orientation, and solving complex problems through clean, structured code.

### PROFESSIONAL EXPERIENCE

---

#### Full Stack & AI Developer Intern

11/2025 – 05/2026

DigiSoc

Bogotá D.C.

- **Full Stack & AI Core Development:** Held a lead role in building the GRC portal "MAXI.AI" from scratch, implementing a microservices architecture using React, Tailwind V4, and Python (Flask/Uvicorn).
- **LLM Integration & Vector DBs:** Integrated local LLMs and Gemini 3.1 Flash Lite with Qdrant vector databases and PostgreSQL to build high-efficiency document query pipelines.
- **Infrastructure & Deployment:** Orchestrated production deployments on Ubuntu servers using Docker Compose. Configured Nginx as a reverse proxy and handled SSL/TLS certifications for corporate networks.
- **AI-Driven Workflow:** Utilized advanced AI prompting and coding tools daily to refactor code, investigate system bugs, and speed up features delivery.

### KEY PROJECTS

---

#### NudgeMe

2026

AI Productivity Assistant (Collaborative Project)

Co-developed an AI-driven productivity application with a peer, utilizing Git/GitHub for efficient version control, code reviews, and collaborative feature planning.

- **Tech Stack:** Angular 19, NestJS, TypeScript, TailwindCSS, AnimeJS, MongoDB, and Anthropic Claude API.
- **Key Achievements:** Implemented Google OAuth2 with JWT (HTTP-only cookies), developed dynamic energy-tracking widgets, and integrated Claude's API to analyze onboarding profiles and generate tailored daily task recommendations.

#### Personal Professional Portfolio

2026

Interactive Web Experience

Designed and engineered a fully responsive personal portfolio from scratch to showcase engineering capabilities, featuring a custom "Code Editor" visual theme.

- **Tech Stack:** Next.js, React, TypeScript, Tailwind CSS, and Framer Motion / AnimeJS.
- **Key Achievements:** Implemented complex Parallax animations and a modular Bento Grid layout to optimize content hierarchy. Successfully integrated a secure, dedicated "Contact Me" email form and deployed the production site on Vercel with high-performance scores.

**Lexis Manage**

07/2024 – 09/2024

*Gym Management System (Academic)*

Developed an end-to-end web platform for user management, membership tracking, workflows, and simulated payment gateways.

- **Technologies:** Java (Spring Boot), MySQL, and Ubuntu Linux virtual servers (VM).

**EDUCATION**

---

**Degree in Software Development and Mobile Applications**

2023 – 05/2026

*Politécnico Internacional*

Bogotá D.C.

**SKILLS**

---

**Languages & Web Technologies**

- TypeScript
- JavaScript
- Python
- Java
- HTML/CSS

**Databases**

- PostgreSQL (Relational)
- MySQL
- MongoDB
- Qdrant (Vector DB)

**Infrastructure & DevOps**

- Docker Compose
- Ubuntu Linux Server
- Nginx Proxy
- Google Cloud Platform (GCP)
- Git/Gitea
- SSL/TLS Management

**Frameworks & Libraries**

- React
- Angular 19
- NestJS
- Next.js
- Java Spring Boot
- Flask
- Tailwind CSS

**AI Expertise**

- LLM Integration (Gemini, Claude, Local Models)
- Embeddings generation
- OCR processing

**Management Tools**

- Google Workspace
- Jira
- Slack

**LANGUAGES & SOFT SKILLS**

---

**Languages**

- Spanish (Native)
- Intermediate English (B1 - Strong written competence and technical documentation comprehension).

**Soft Skills**

Teamwork, adaptability to change, complex problem solving, high autonomy, and code ownership.
